

Covid-19 Statement

The health, safety & wellbeing of all those who work with & for us and everyone who is affected by what we do is always our priority.

As Covid-19 pandemic evolves we will continue to develop our approach in the way we operate, and we will respond swiftly to any changes.

Our Factory/Offices remain operational, which are fully aligned to the latest UK Government guidelines, and our Covid-19 procedures to ensure the health, safety & wellbeing of all those who work with & for us. We are committed to provide a safe environment for our employees and their families.

We have tested our IT Systems thoroughly to ensure that employees working from home are able to do so efficiently. We have data and system backup and recovery procedures in place.

We are communicating with our employees daily to keep them informed about latest advice and guidance and about what GR Electrical is doing to protect our business.

We have a process in place to limit the transmission of infection, including social distancing & extended hygiene protocols. Our employees have received toolbox talks on Covid-19 via our virtual notice board and are committed to maintaining strict social distancing & hygiene standards.

We have taken additional precautions to protect our workforce & visitors. Newly introduced measures include increased cleaning, high visibility signage to maintain social distancing, limited access for visitors and the availability of PPE.

Any visitors to GR Electrical Services will be asked to comply with our new working procedure and to complete a visitor's questionnaire to self-declare their health status & have their temperature taken as part of the governments track & trace recommendations. Any visitors who declare Covid-19 symptoms will not be permitted.

This statement will be monitored and reviewed throughout the year.

A handwritten signature in black ink, appearing to read 'D. Storr', on a light blue background.

Dave Storr
Operations Director
