

## Tendering Engineer – Switchgear & Power Distribution

Between Leeds & York, LS25 6NB | £45,000 – £60,000 + Pension + Training

**Join a company where engineering meets craftsmanship.**

At **GR Electrical Services Ltd**, we don't just manufacture switchgear—we engineer bespoke power distribution solutions trusted across the UK. With a 50-year track record, we blend deep-rooted expertise with innovative thinking to deliver mission-critical infrastructure for our clients.

We're expanding—and we're looking for a **Tendering Engineer** who's ready to take full ownership of complex projects from concept to completion.

---

### What You'll Be Doing

Take the lead on creating winning tenders and accurate estimates:

- Interpret client specifications and drawings to prepare detailed quotations
- Develop compliant and cost-effective technical solutions
- Liaise with suppliers to obtain competitive pricing and lead-time information
- Collaborate with design and projects teams to ensure seamless handover on awarded contracts
- Support clients with value-engineering options and alternative specifications

---

### What You'll Need

We're looking for someone who blends commercial awareness with technical know-how:

- Strong analytical and estimating skills, with a keen eye for detail
- Background in electrical engineering—ideally LV switchgear
- Confident communicator who can manage clients, suppliers, and internal teams

---

### What's On Offer

- **Salary: £47,500 – £60,000 + Performance Bonus**
- **Company pension & regular training**
- **08:00–17:00, Monday to Friday**
- **A tight-knit, skilled team** where your input directly shapes delivery

---

**At GR Electrical, you're not a cog in the system—you're the engineer who builds it.**

Join a team that values real engineering, real results, and real growth.
