

## Project Engineer – Switchgear & Power Distribution

Between Leeds & York , LS25 6NB | £50,000 – £65,000 + Pension + Training

### Join a company where engineering meets craftsmanship.

At **GR Electrical Services Ltd**, we don't just manufacture switchgear—we engineer bespoke power distribution solutions trusted across the UK. With a 50-year track record, we blend deep-rooted expertise with innovative thinking to deliver mission-critical infrastructure for our clients.

We're expanding—and we're looking for a **Project Engineer** who's ready to take full ownership of complex projects from concept to completion.

---

### What You'll Be Doing

Take the reins on full lifecycle project delivery:

- Lead projects *cradle-to-grave*—from order intake through to final invoice
- Design bespoke assemblies and creation electrical schematics
- Specify, source and order materials with precision
- Oversee manufacturing, from build supervision to snag-free delivery
- Own client relationships
- Manage change requests, witness testing (FAT/SAT), and installations

---

### What You'll Need

We're looking for someone who thrives on ownership and technical challenge:

- **Strong project management** skills and attention to detail
- Background in **electrical engineering**, ideally in **power distribution**
- Comfortable with **Inventor, AutoCAD**, and technical drawings
- Confident communicator who can manage stakeholders and suppliers
- HNC or higher in Electrical Engineering (or related discipline)

---

### What's On Offer

- **Company pension** & regular **training**
- 08:00–17:00, Monday to Friday
- A **tight-knit, skilled team** where your input directly shapes delivery

---

**At GR Electrical, you're not a cog in the system—you're the engineer who builds it.**

Join a team that values real engineering, real results, and real growth.
